EXPERIENCE

Auxillium, Online — French, Math and Coding Mentor (Volunteer)

SEPTEMBER 2023 - PRESENT

Provided personalized free mentoring to middle school and elementary school students in French, math and CS.

Developed engaging customized lesson plans specific to students' learning styles.

Mentored 3 students weekly, helping improve their grade and confidence in French, math and CS.

Student Hackpad, Online — Hackathon Organizer

NOVEMBER 2025 - PRESENT

Designed the event's branding, promotional materials, and visual assets.

Supported the planning and execution of the hackathon, coordinating participants and assisting with event logistics.

EDUCATION

Merivale HS, Nepean — International Baccalaureate Diploma

September 2024 - June 2027

Currently enrolled in the rigorous IB program with a focus on STEM subjects.

PROJECTS

HoloLegends — Video Game

Currently developing a 2D pixel fantasy adventure game.

Designed a combat system, created original pixel art, and wrote game logic in GML (GameMaker Language).

Collaborated with other game developers to test and improve game balance.

Silksong-Inspired Game — Video Game

Built a Silksong-inspired 2D platformer in Python (Pygame) with custom movement, collision systems and enemy AI.
